

UTHANDO DOLL WRAPS AND CHILD WRAPS

Remember being wrapped up snugly?

It is very nurturing for the child to wrap up a doll.

Sizes may vary, but need to wrap around a Uthando doll, eg 25cms x 40cms.

Doll wraps can be;

- Cut out of stretch knit fabric with no need to hem.
- Cut out and hemmed in plain or figured material or fabric with appliqué.
- Knitted in stripes and perhaps bordered in crochet.
- Crocheted in a variety of patterns. Some expert crafts people make this item a chance to show off their expertise with fantastic patterns:

Doll wraps in different crochet patterns. We can use hundreds.

Child wraps to tie a doll on the back:

Length of red knit fabric and a lavender knitted child wrap in a TREE crèche near Durban

Children want to play out games of "real life". Carrying a doll on their back is what their mother or older siblings do with a baby.

Make these Child wraps at least 140cms long and approx. 30cms deep.

The fabric needs to be easily tied by children.

By all means add appliqué, textured pieces, interesting border, etc.
